Summary of reasons for decision:

The computer image file shows a young woman sitting on an examination table, naked except for a gown pushed down to her thighs and concealing her genitals. A smiling young man in a doctor's white coat stands beside her, holding a stethoscope to her chest. The image is one of a series showing a doctor/patient sexual fantasy and is intended for the purpose of sexual titillation. A restriction to adult viewers is appropriate.

The New Zealand Bill of Rights Act 1990 has been considered in the application of the criteria of the Films, Videos, and Publications Classification Act 1993 to this publication. The classification places a limit on the freedom of expression, but the availability of the publication to children and young people is likely to be injurious to the public good. The classification is reasonable, demonstrably justifiable and the minimum required to avoid injury.
